PREFACE TO THE INTERNATIONAL QUALITY MANAGEMENT, AUDITING, REVIEW, SUSTAINABILITY AND OTHER ASSURANCE, AND RELATED SERVICES PRONOUNCEMENTS

Introduction

1. This preface to the *International Quality Management, Auditing, Review, Sustainability and Other Assurance, and Related Services Pronouncements* is issued to facilitate understanding of the scope and authority of the pronouncements the International Auditing and Assurance Standards Board (IAASB) issues, as set forth in the IAASB’s Terms of Reference.

The IAASB’s Pronouncements

IAASB Authoritative Pronouncements

3. The IAASB’s pronouncements govern audit, review, *sustainability and* other assurance, and related services engagements that are conducted in accordance with International Standards. They do not override the local laws or regulations that govern the audit of historical financial statements or assurance engagements on *sustainability* or other information in a particular country required to be followed in accordance with that country’s national standards. In the event that local laws or regulations differ from, or conflict with, the IAASB’s Standards on a particular subject, an engagement conducted in accordance with local laws or regulations will not automatically comply with the IAASB’s Standards. A professional accountant, auditor or practitioner should not represent compliance with the IAASB’s Standards unless the professional accountant, auditor or practitioner has complied fully with all standards relevant to the engagement.

\(^2\) ISRE 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*
7A. International Standards on Sustainability Assurance (ISSAs) are to be applied in assurance engagements on sustainability information.³

9. ISAs, ISREs, ISAEs, ISSAs and ISRSs are collectively referred to as the IAASB’s Engagement Standards.

Other International Standards

15. The basic principles and essential procedures of a Standard are to be applied in all cases where they are relevant in the circumstances of the engagement. In exceptional circumstances, however, an professional accountant, auditor or practitioner may judge it necessary to depart from a relevant essential procedure in order to achieve the purpose of that procedure. When such a situation arises, the professional accountant, auditor or practitioner is required to document how alternative procedures performed achieve the purpose of the procedure and, unless otherwise clear, the reasons for the departure. The need for the professional accountant, auditor or practitioner to depart from a relevant essential procedure is expected to arise only where, in the specific circumstances of the engagement, that procedure would be ineffective.

Professional Judgment

17. The nature of the International Standards requires the professional accountant, auditor or practitioner to exercise professional judgment in applying them.

Applicability of the International Standards

18. The scope, effective date and any specific limitation of the applicability of a specific International Standard is made clear in the Standard. Unless otherwise stated in the International Standard, the professional accountant, auditor or practitioner is permitted to apply an International Standard before the effective date specified therein.

5. This ISAE covers assurance engagements other than audits or reviews of historical financial information or assurance engagements on sustainability information, as described in the International Framework for Assurance Engagements (Assurance Framework). Where a subject-matter specific ISAE is relevant to the subject matter of a particular engagement, that ISAE applies in addition to this ISAE. (Ref: Para. A21–A22)

Application and Other Explanatory Material

Conduct of an Assurance Engagement in Accordance with ISAE

Complying with Standards that Are Relevant to the Engagement (Ref: Para. 1, 5, 15)

A21. This ISAE includes requirements that apply to assurance engagements\(^\text{11}\) (other than audits or reviews of historical financial information or assurance engagements on sustainability information), including engagements in accordance with a subject-matter specific ISAE. In some cases, a subject matter specific ISAE is also relevant to the engagement. A subject matter-specific ISAE is relevant to the engagement when the ISAE is in effect, the subject matter of the ISAE is relevant to the engagement, and the circumstances addressed by the ISAE exist.

A22. The ISAs and ISREs have been written for audits and reviews of historical financial information, respectively, and do not apply to other assurance engagements. They may, however, provide guidance in relation to the engagement process generally for practitioners undertaking an assurance engagement in accordance with this ISAE.

ISAE 3410, ASSURANCE ENGAGEMENTS ON GREENHOUSE GAS STATEMENTS

Introduction

Scope of this ISAE

2. This International Standard on Assurance Engagements (ISAE) deals with assurance engagements to report on an entity’s GHG statement.

3. International Standard on Sustainability Assurance (ISSA) 5000\(^\text{12}\) applies to all assurance engagements on sustainability information, except when the practitioner is providing a separate conclusion on a GHG statement, in which case this ISAE applies. The practitioner’s conclusion in an assurance engagement may cover information in addition to a GHG statement, for example, when

\(^{11}\) This ISAE contains requirements and application and other explanatory material specific to reasonable and limited assurance attestation engagements. This ISAE may also be applied to reasonable and limited assurance direct engagements, adapted and supplemented as necessary in the engagement circumstances.

the practitioner is engaged to report on a sustainability report of which a GHG statement is only one part. In such cases: (Ref: Para. A1-A2)

(a) This ISAE applies to assurance procedures performed with respect to the GHG statement other than when the GHG statement is a relatively minor part of the overall information subject to assurance; and

(b) ISAE 3000 (Revised)\(^{14}\) (or another ISAE dealing with a specific underlying subject matter) applies to assurance procedures performed with respect to the remainder of the information covered by the practitioner’s conclusion.

3A. The practitioner’s conclusion in an assurance engagement on a GHG statement may cover information other than sustainability information in addition to the GHG statement. In such cases, ISAE 3000 (Revised)\(^{14}\) (or another ISAE dealing with a specific underlying subject matter) applies to assurance procedures performed with respect to the remainder of the information covered by the practitioner’s conclusion.

Introduction

Assurance Engagements Covering Information in Addition to the GHG Statement (Ref: Para. 3)

A1. In some cases, the practitioner may perform an assurance engagement on a report that includes GHG information, but that GHG information does not comprise a GHG statement as defined in paragraph 14(m). In such cases, ISSA 5000\(^{15}\) applies. However, this ISAE may provide guidance for such an engagement.

A2. Where a GHG statement is a relatively minor part of the overall information that is covered by the practitioner’s conclusion, the extent to which this ISAE is relevant is a matter for the practitioner’s professional judgment in the circumstances of the engagement.
