

Agenda Item 3-F

Analysis of ISA 545

This Agenda Item summarizes the disposition of material in extant ISA 545 in producing the Combined ISA 540-545.

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
Introduction			
<p>1. The purpose of this International Standard on Auditing (ISA) is to establish standards and provide guidance auditing fair value measurements and disclosures contained in financial statements. In particular, this ISA addresses audit considerations relating to the measurement, presentation and disclosure of material assets, liabilities and specific components of equity presented or disclosed at fair value in financial statements. Fair value measurements of assets, liabilities and components of equity may arise from both the initial recording of transactions and later changes in value. Changes in fair value measurements that occur over time may be treated in different ways under different financial reporting frameworks. For example, some financial reporting frameworks may require that such changes be reflected directly in equity, while others may require them to be reflected in income.<i>[See A7.]</i></p>	<p>The purpose of this International Standard on Auditing (ISA) is to establish standards and provide guidance on auditing fair value measurements and disclosures contained in financial statements. <i>[See 2, and A2-A3]</i></p> <p>Fair value measurements of assets, liabilities and components of equity may arise from both the initial recording of transactions and later changes in value. Changes in fair value measurements that occur over time may be treated in different ways under different financial reporting frameworks. For example, some financial reporting frameworks may require that such changes be reflected directly in equity, while others may require them to be reflected in income. <i>[See Appendix]</i></p>		<p>In particular, this ISA addresses audit considerations relating to the measurement, presentation and disclosure of material assets, liabilities and specific components of equity presented or disclosed at fair value in financial statements.</p>

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
measurement and disclosure of fair values. For example, inspection procedures to verify existence of an asset measured at fair value also may provide relevant audit evidence about its valuation (such as the physical condition of an investment property).	measurement and disclosure of fair values. For example, inspection procedures to verify existence of an asset measured at fair value also may provide relevant audit evidence about its valuation (such as the physical condition of an investment property). <i>[See A47]</i>		
2a. ISA 500, “Audit Evidence” paragraph 16 requires the auditor to use assertions in sufficient detail to form a basis for the assessment of risks of material misstatements and the design and performance of further audit procedures in response to the assessed risks. Fair value measurements and disclosures are not in themselves assertions, but may be relevant to specific assertions, depending on the applicable financial reporting framework.			ISA 500, “Audit Evidence” paragraph 16 requires the auditor to use assertions in sufficient detail to form a basis for the assessment of risks of material misstatements and the design and performance of further audit procedures in response to the assessed risks. Fair value measurements and disclosures are not in themselves assertions, but may be relevant to specific assertions, depending on the applicable financial reporting framework. <i>[Redundant with proposed redrafted ISA 315]</i>
3. The auditor should obtain sufficient appropriate audit evidence that fair value measurements and disclosures are in accordance with the entity’s applicable financial reporting framework. Paragraph 22 of ISA 315, “Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement” requires the auditor to obtain an understanding of the entity’s applicable financial reporting framework.		The auditor should obtain sufficient appropriate audit evidence that fair value measurements and disclosures are in accordance with the entity’s applicable financial reporting framework. <i>[See 4]</i>	Paragraph 22 of ISA 315, “Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement” requires the auditor to obtain an understanding of the entity’s applicable financial reporting framework. <i>[Redundant with ISA 315]</i>
4. Management is responsible for making the fair		Management is responsible for making the fair value measurements and disclosures included in	

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
value measurements and disclosures included in the financial statements. As part of fulfilling its responsibility, management needs to establish an accounting and financial reporting process for determining the fair value measurements and disclosures, select appropriate valuation methods, identify and adequately support any significant assumptions used, prepare the valuation and ensure that the presentation and disclosure of the fair value measurements are in accordance with the entity's applicable financial reporting framework.		the financial statements. As part of fulfilling its responsibility, management needs to establish an accounting and financial reporting process for determining the fair value measurements and disclosures, select appropriate valuation methods, identify and adequately support any significant assumptions used, prepare the valuation and ensure that the presentation and disclosure of the fair value measurements are in accordance with the entity's applicable financial reporting framework. <i>[See A6 & A23]</i>	
5. Many measurements based on estimates, including fair value measurements, are inherently imprecise. In the case of fair value measurements, particularly those that do not involve contractual cash flows or for which market information is not available when making the estimate, fair value estimates often involve uncertainty in both the amount and timing of future cash flows. Fair value measurements also may be based on assumptions about future conditions, transactions or events whose outcome is uncertain and will therefore be subject to change over time. The auditor's consideration of such assumptions is based on information available to the auditor at the time of the audit and the auditor is not responsible for predicting future conditions, transactions or events which, had they been known at the time of the audit, may have had a significant effect on	In the case of fair value measurements, particularly those that do not involve contractual cash flows or for which market information is not available when making the estimate, fair value estimates often involve uncertainty in both the amount and timing of future cash flows <i>[See A6 & A39]</i>	Many measurements based on estimates, including fair value measurements, are inherently imprecise. <i>[See A1&A7]</i> Fair value measurements also may be based on assumptions about future conditions, transactions or events whose outcome is uncertain and will therefore be subject to change over time. The auditor's consideration of such assumptions is based on information available to the auditor at the time of the audit and the auditor is not responsible for predicting future conditions, transactions or events which, had they been known at the time of the audit, may have had a significant effect on management's actions or	

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
management's actions or management's assumptions underlying the fair value measurements and disclosures. Assumptions used in fair value measurements are similar in nature to those required when developing other accounting estimates. ISA 540, "Audit of Accounting Estimates" provides guidance on auditing accounting estimates. This ISA, however, addresses considerations similar to those in ISA 540 as well as others in the specific context of fair value measurements and disclosures in accordance with an applicable financial reporting framework.		management's assumptions underlying the fair value measurements and disclosures. <i>[See A1&A65]</i>	Assumptions used in fair value measurements are similar in nature to those required when developing other accounting estimates. ISA 540, "Audit of Accounting Estimates" provides guidance on auditing accounting estimates. This ISA, however, addresses considerations similar to those in ISA 540 as well as others in the specific context of fair value measurements and disclosures in accordance with an applicable financial reporting framework. <i>[No longer applicable]</i>
6. Different financial reporting frameworks require or permit a variety of fair value measurements and disclosures in financial statements. They also vary in the level of guidance that they provide on the basis for measuring assets and liabilities or the related disclosures. Some financial reporting frameworks give prescriptive guidance, others give general guidance, and some give no guidance at all. In addition, certain industry-specific measurement and disclosure practices for fair values also exist. While this ISA provides guidance on auditing fair value measurements and disclosures, it does not address specific types of assets or liabilities, transactions, or industry-specific practices. The Appendix to this ISA discusses fair value measurements and disclosures under different	In addition, certain industry-specific measurement and disclosure practices for fair values also exist. <i>[See Appendix]</i> The Appendix to this ISA discusses fair value measurements and disclosures under different financial reporting frameworks and the	Different financial reporting frameworks require or permit a variety of fair value measurements and disclosures in financial statements. Some financial reporting frameworks give prescriptive guidance, others give general guidance, and some give no guidance at all. <i>[See A8&A13]</i>	While this ISA provides guidance on auditing fair value measurements and disclosures, it does not address specific types of assets or liabilities, transactions, or industry-specific practices. <i>[Unnecessary, and applicable to all ISAs]</i>

ISA 545	Content or principal points <u>brought forward to the Combined ISA, reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already by ISA 540 (Revised) and accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
<p>financial reporting frameworks and the prevalence of fair value measurements, including the fact that different definitions of “fair value” may exist under such frameworks. For example, International Accounting Standard (IAS) 39, “Financial Instruments: Recognition and Measurement” defines fair value as “the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm’s length transaction.”</p>	<p>prevalence of fair value measurements, including the fact that different definitions of “fair value” may exist under such frameworks. <i>[See A2]</i></p> <p>For example, International Accounting Standard (IAS) 39, “Financial Instruments: Recognition and Measurement” defines fair value as “the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm’s length transaction.” <i>[See Appendix]</i></p>		
<p>7. In most financial reporting frameworks, underlying the concept of fair value measurements is a presumption that the entity is a going concern without any intention or need to liquidate, curtail materially the scale of its operations, or undertake a transaction on adverse terms. Therefore, in this case, fair value would not be the amount that an entity would receive or pay in a forced transaction, involuntary liquidation, or distress sale. An entity, however, may need to take its current economic or operating situation into account in determining the fair values of its assets and liabilities if prescribed or permitted to do so by its financial reporting framework and such framework may or may not specify how that is done. For example, management’s plan to dispose of an asset on an accelerated basis to meet specific business objectives may be relevant to the determination of the fair value of that asset.</p>	<p>In most financial reporting frameworks, underlying the concept of fair value measurements is a presumption that the entity is a going concern without any intention or need to liquidate, curtail materially the scale of its operations, or undertake a transaction on adverse terms. ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
	of the fair value of that asset. <i>[See Appendix]</i>		
8. The measurement of fair value may be relatively simple for certain assets or liabilities, for example, assets that are bought and sold in active and open markets that provide readily available and reliable information on the prices at which actual exchanges occur. The measurement of fair value for other assets or liabilities may be more complex. A specific asset may not have an active market or may possess characteristics that make it necessary for management to estimate its fair value (for example, an investment property or a complex derivative financial instrument). The estimation of fair value may be achieved through the use of a valuation model (for example, a model premised on projections and discounting of future cash flows) or through the assistance of an expert, such as an independent valuer.	<p>...for example, assets that are bought and sold in active and open markets that provide readily available and reliable information on the prices at which actual exchanges occur. <i>[See 2&A3]</i></p> <p>A specific asset may not have an active market or may possess characteristics that make it necessary for management to estimate its fair value <i>[See 2, A1 & A3]</i> (for example, an investment property or a complex derivative financial instrument). <i>[See A7]</i> The estimation of fair value may be achieved through the use of a valuation model (for example, a model premised on projections and discounting of future cash flows)... <i>[See A22]</i></p>	<p>The measurement of fair value may be relatively simple for certain assets or liabilities...</p> <p>....The measurement of fair value for other assets or liabilities may be more complex. <i>[See A6]</i></p> <p>...or through the assistance of an expert, such as an independent valuer. <i>[See A26]</i></p>	
9. The uncertainty associated with an item, or the lack of objective data may make it incapable of reasonable estimation, in which case, the auditor considers whether the auditor's report needs modification to comply with ISA 700, "The Auditor's Report on Financial Statements."		The uncertainty associated with an item, or the lack of objective data may make it incapable of reasonable estimation, in which case, the auditor considers whether the auditor's report needs modification to comply with ISA 700, "The Auditor's Report on Financial Statements." <i>[See A7 & A98]</i>	
Understanding the Entity's Process for Determining Fair Value Measurements and Disclosures and Relevant Control Activities, and Assessing Risk			
10. As part of the understanding of the entity and its environment, including its internal		As part of the understanding of the entity and its environment, including its internal control,	

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
control, the auditor should obtain an understanding of the entity's process for determining fair value measurements and disclosures and of the relevant control activities sufficient to identify and assess the risks of material misstatement at the assertion level and to design and perform further audit procedures.		the auditor should obtain an understanding of the entity's process for determining fair value measurements and disclosures and of the relevant control activities sufficient to identify and assess the risks of material misstatement at the assertion level and to design and perform further audit procedures. <i>[See 6(c)(i), to the extent not redundant with ISA 315]</i>	
11. Management is responsible for establishing an accounting and financial reporting process for determining fair value measurements. In some cases, the measurement of fair value and therefore the process set up by management to determine fair value may be simple and reliable. For example, management may be able to refer to published price quotations to determine fair value for marketable securities held by the entity. Some fair value measurements, however, are inherently more complex than others and involve uncertainty about the occurrence of future events or their outcome, and therefore assumptions that may involve the use of judgment need to be made as part of the measurement process. The auditor's understanding of the measurement process, including its complexity, helps identify and assess the risks of material misstatement in order to determine the nature, timing and extent of the further audit procedures. control activities that are capable of being implemented. The susceptibility to misstatement of fair value measurements also may increase as the accounting and financial reporting requirements for fair value measurements become more complex. The auditor considers the inherent limitations of controls in such circumstances in assessing the risk of material misstatement		The susceptibility to misstatement of fair value measurements also may increase as the accounting and financial reporting requirements for fair value measurements become more complex. <i>[See A45]</i>	activities that are capable of being implemented. The auditor considers the inherent limitations of controls in such circumstances in assessing the risk of material misstatement <i>[Redundant with ISA 315]</i>
Evaluating the Appropriateness of Fair Value Measurements and Disclosures			
17. The auditor should evaluate whether the fair value measurements and disclosures in the financial statements are in accordance with the entity's applicable financial reporting framework.		The auditor should evaluate whether the fair value measurements and disclosures in the financial statements are in accordance with the entity's applicable financial reporting framework. <i>[See 9(a)]</i>	
18. The auditor's understanding of the requirements of the applicable financial reporting framework and knowledge of the business and industry, together with the results of other audit procedures, are used to assess whether the accounting for assets or liabilities requiring fair value measurements is appropriate, and whether the disclosures about the fair value measurements and significant uncertainties related thereto are appropriate under the entity's applicable financial reporting framework.		The auditor's understanding of the requirements of the applicable financial reporting framework and knowledge of the business and industry, together with the results of other audit procedures, are used to assess whether the accounting for assets or liabilities requiring fair value measurements is appropriate, and whether the disclosures about the fair value measurements and significant uncertainties related thereto are appropriate under the entity's applicable financial reporting framework. <i>[See A12, and in general covered in substances by the Combined ISA as a whole]</i>	
19. The evaluation of the appropriateness of the	The evaluation of the appropriateness of the		

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
<p>entity's fair value measurements under its applicable financial reporting framework and the evaluation of audit evidence depends, in part, on the auditor's knowledge of the nature of the business. This is particularly true where the asset or liability or the valuation method is highly complex. For example, derivative financial instruments may be highly complex, with a risk that differing interpretations of how to determine fair values will result in different conclusions. The measurement of the fair value of some items, for example "in-process research and development" or intangible assets acquired in a business combination, may involve special considerations that are affected by the nature of the entity and its operations if such considerations are appropriate under the entity's applicable financial reporting framework. Also, the auditor's knowledge of the business, together with the results of other audit procedures, may help identify assets for which management needs to recognize an impairment by using a fair value measurement pursuant to the entity's applicable financial reporting framework.</p>	<p>entity's fair value measurements under its applicable financial reporting framework and the evaluation of audit evidence depends, in part, on the auditor's knowledge of the nature of the business.... <i>[See A46]</i></p> <p>For example, derivative financial instruments may be highly complex...<i>[See A5]</i>,</p> <p>...The measurement of the fair value of some items, for example "in-process research and development" or intangible assets acquired in a business combination, may involve special considerations that are affected by the nature of the entity and its operations if such considerations are appropriate under the entity's applicable financial reporting framework. <i>[See A46]</i></p>	<p>...with a risk that differing interpretations of how to determine fair values will result in different conclusions. <i>[See A45]</i></p>	<p>This is particularly true where the asset or liability or the valuation method is highly complex.</p> <p>Also, the auditor's knowledge of the business, together with the results of other audit procedures, may help identify assets for which management needs to recognize an impairment by using a fair value measurement pursuant to the entity's applicable financial reporting framework. <i>[Example not considered necessary to further the point made]</i></p>
<p>20. the measurement of fair value is consistent with that method.		the measurement of fair value is consistent with that method. <i>[See A45]</i>	
21. Some financial reporting frameworks presume that fair value can be measured reliably for assets or liabilities as a prerequisite to either requiring or permitting fair value measurements or disclosures. In some cases, this presumption may be overcome when an asset or liability does not have a quoted market price in an active market and for which other methods of reasonably estimating fair value are clearly inappropriate or unworkable. When management has determined that it has overcome the presumption that fair value can be reliably determined, the auditor obtains sufficient appropriate audit evidence to support such determination, and whether the item is properly accounted for under the applicable financial reporting framework.	Some financial reporting frameworks presume that fair value can be measured reliably for assets or liabilities as a prerequisite to either requiring or permitting fair value measurements or disclosures. In some cases, this presumption may be overcome when an asset or liability does not have a quoted market price in an active market and for which other methods of reasonably estimating fair value are clearly inappropriate or unworkable. When management has determined that it has overcome the presumption that fair value can be reliably determined, the auditor obtains sufficient appropriate audit evidence to support such determination, and whether the item is properly accounted for under the applicable financial reporting framework. <i>[See 13(b) & A99]</i>		
22. The auditor should obtain audit evidence about management's intent to carry out specific courses of action, and consider its ability to do so, where relevant to the fair value measurements and disclosures under the entity's applicable financial reporting framework.		The auditor should obtain audit evidence about management's intent to carry out specific courses of action, and consider its ability to do so, where relevant to the fair value measurements and disclosures under the entity's applicable financial reporting framework. <i>[See 11(b)]</i>

requirements of the entity's applicable financial reporting framework. If management has changed the valuation method, the auditor considers whether management can adequately demonstrate that the valuation method to which it has changed provides a more appropriate basis of measurement, or whether the change is supported by a change in the requirements of the entity's applicable financial reporting framework or a change in circumstances. For example, the introduction of an active market for a particular class of asset or liability may indicate that the use of discounted cash flows to estimate the fair value of such asset or liability is no longer appropriate.	For example, the introduction of an active market for a particular class of asset or liability may indicate that the use of discounted cash flows to estimate the fair value of such asset or liability is no longer appropriate. <i>[See A48]</i>	requirements of the entity's applicable financial reporting framework. If management has changed the valuation method, the auditor considers whether management can adequately demonstrate that the valuation method to which it has changed provides a more appropriate basis of measurement, or whether the change is supported by a change in the requirements of the entity's applicable financial reporting framework or a change in circumstances. <i>[See A30 & A49-A50]</i>	
Using the Work of an Expert			
29. The auditor should determine the need to use the work of an expert. The auditor may have the necessary skill and knowledge to plan and perform audit procedures related to fair values or may decide to use the work of an expert. In making such a determination, the auditor considers the matters discussed in paragraph 7 of ISA 620, "Using the Work of an Expert."		The auditor may have the necessary skill and knowledge to plan and perform audit procedures related to fair values or may decide to use the work of an expert. In making such a determination, the auditor considers the matters discussed in paragraph 7 of ISA 620, "Using the Work of an Expert." <i>[See A83.]</i>	The auditor should determine the need to use the work of an expert. <i>[To be covered in revised ISA 620]</i>
30. If the use of such an expert is planned, the auditor obtains sufficient appropriate audit evidence that such work is adequate for the purposes of the audit, and complies with the requirements of ISA 620.			If the use of such an expert is planned, the auditor obtains sufficient appropriate audit evidence that such work is adequate for the purposes of the audit, and complies with the requirements of ISA 620.

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
<p>31. When planning to use the work of an expert, the auditor considers whether the expert's understanding of the definition of fair value and the method that the expert will use to determine fair value are consistent with that of management and the requirements of the applicable financial reporting framework. For example, the method used by an expert for estimating the fair value of real estate or a complex derivative, or the actuarial methodologies developed for making fair value estimates of insurance obligations, reinsurance receivables and similar items, may not be consistent with the measurement principles of the applicable financial reporting framework. Accordingly, the auditor considers such matters, often by discussing, providing or reviewing instructions given to the expert or when reading the report of the expert.</p>			<p>When planning to use the work of an expert, the auditor considers whether the expert's understanding of the definition of fair value and the method that the expert will use to determine fair value are consistent with that of management and the requirements of the applicable financial reporting framework. auditor's evaluation of significant assumptions used by management, including assumptions relied upon by management based on the work of an expert.			auditor's evaluation of significant assumptions used by management, including assumptions relied upon by management based on the work of an expert.
Audit Procedures Responsive to the Risk of Material Misstatement of the Entity's Fair Value Measurements and Disclosures			
33. The auditor should design and perform further audit procedures in response to assessed risks of material misstatement of assertions relating to the entity's fair value measurements and disclosures. ISA 330, "The Auditor's Procedures in Response to Assessed Risks" discusses the auditor's responsibility to design and perform further audit procedures whose nature, timing and extent are responsive to the assessed risk of material misstatement at the assertion level. Such further audit procedures include tests of control and substantive procedures, as appropriate. Paragraphs 34-55 below provide additional specific guidance on substantive procedures that may be relevant in the context of the entity's fair value measurements and disclosures.			The auditor should design and perform further audit procedures in response to assessed risks of material misstatement of assertions relating to the entity's fair value measurements and disclosures. ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
<p>fair value measurements may involve (a) testing management's significant assumptions, the valuation model, and the underlying data (see paragraphs 39-49), (b) developing independent fair value estimates to corroborate the appropriateness of the fair value measurement (see paragraph 52), or (c) considering the effect of subsequent events on the fair value measurement and disclosures (see paragraphs 53-55).</p>	<p>....the valuation model <i>[See A64]</i></p>	<p>management's significant assumptions..... and the underlying data (see paragraphs 39-49), (b) developing independent fair value estimates to corroborate the appropriateness of the fair value measurement (see paragraph 52), or (c) considering the effect of subsequent events on the fair value measurement and disclosures (see paragraphs 53-55). <i>[See 10]</i></p>	
<p>35. The existence of published price quotations in an active market ordinarily is the best audit evidence of fair value. Some fair value measurements, however, are inherently more complex than others. This complexity arises either because of the nature of the item being measured at fair value or because of the valuation method required by the applicable financial reporting framework or selected by management. For example, in the absence of quoted prices in an active market, some financial reporting frameworks permit an estimate of fair value based on an alternative basis such as a discounted cash flow analysis or a comparative transaction model. Complex fair value measurements normally are characterized by greater uncertainty regarding the reliability of the measurement process. This greater uncertainty may be a result of the following:</p> <ul style="list-style-type: none"> • Length of the forecast period. 	<p>The existence of published price quotations in an active market ordinarily is the best audit evidence of fair value. <i>[See A3]</i> Some fair value measurements, however, are inherently more complex than others. Testing Management's Significant Assumptions, the Valuation Model, and the Underlying Data			
37. The auditor's understanding of the reliability of the process used by management to determine fair value is an important element in support of the resulting amounts and therefore affects the nature, timing, and extent of further audit		The auditor's understanding of the reliability of the process used by management to determine fair value is an important element in support of the resulting amounts and therefore affects the nature, timing, and extent of further audit	A reliable process for determining fair value is

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
<p>procedures. A reliable process for determining fair value is one that results in reasonably consistent measurement and, where relevant, presentation and disclosure of fair value when used in similar circumstances. When obtaining audit evidence about the entity's fair value measurements and disclosures, the auditor evaluates whether:</p> <ul style="list-style-type: none"> • The assumptions used by management are reasonable; • The fair value measurement was determined using an appropriate model, if applicable; and • Management used relevant information that was reasonably available at the time. 	<ul style="list-style-type: none"> • The fair value measurement was determined using an appropriate model, if applicable <i>[See A64]</i> 	<p>procedures. <i>[See 6(c)]</i></p> <p>When obtaining audit evidence about the entity's fair value measurements and disclosures, the auditor evaluates whether:</p> <ul style="list-style-type: none"> • The assumptions used by management are reasonable; <i>[See 10(b)]</i> • Management used relevant information that was reasonably available at the time. <i>[Throughout the Combined ISA]</i> 	<p>one that results in reasonably consistent measurement and, where relevant, presentation and disclosure of fair value when used in similar circumstances.</p>
<p>38. Estimation techniques and assumptions and the auditor's consideration and comparison of fair value measurements determined in prior periods, if any, to results obtained in the current period may provide audit evidence of the reliability of management's processes. However, the auditor also considers whether such variances result from changes in economic circumstances.</p>	<p>However, the auditor also considers whether such variances result from changes in economic circumstances. <i>[See A36]</i></p>	<p>Estimation techniques and assumptions and the auditor's consideration and comparison of fair value measurements determined in prior periods, if any, to results obtained in the current period may provide audit evidence of the reliability of management's processes. <i>[See A32]</i></p>	
<p>39. Where the auditor determines there is a significant risk related to fair values, or where otherwise applicable, the auditor should evaluate whether the significant assumptions used by management in measuring fair values,</p>		<p>Where the auditor determines there is a significant risk related to fair values, or where otherwise applicable, the auditor should evaluate whether the significant assumptions used by management in measuring fair values,</p>	

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
taken individually and as a whole, provide a reasonable basis for the fair value measurements and disclosures in the entity's financial statements.		taken individually and as a whole, provide a reasonable basis for the fair value measurements and disclosures in the entity's financial statements. <i>[See 11(b)]</i>	
<p>40. It is necessary for management to make assumptions, including assumptions relied upon by management based upon the work of an expert, to develop fair value measurements. For these purposes, management's assumptions also include those assumptions developed under the guidance of those charged with governance. Assumptions are integral components of more complex valuation methods, for example valuation methods that employ a combination of estimates of expected future cash flows together with estimates of the values of assets or liabilities in the future, discounted to the present. Auditors pay particular attention to the significant assumptions underlying a valuation method and evaluate whether such assumptions are reasonable. To provide a reasonable basis for the fair value measurements and disclosures, assumptions need to be relevant, reliable, neutral, understandable and complete. Paragraph 36 of the "International Framework for Assurance Engagements" describes these characteristics in more detail.</p>	<p>Assumptions are integral components of more complex valuation methods... <i>[See A28]</i></p> <p>To provide a reasonable basis for the fair value measurements and disclosures, assumptions need to be relevant, reliable, neutral, understandable and complete. <i>[See A28]</i></p>	<p>It is necessary for management to make assumptions, including assumptions relied upon by management based upon the work of an expert, to develop fair value measurements. <i>[See A22]</i></p> <p>Auditors pay particular attention to the significant assumptions underlying a valuation method and evaluate whether such assumptions are reasonable. <i>[See 10(b), 11(b) & A72]</i></p>	<p>For these purposes, management's assumptions also include those assumptions developed under the guidance of those charged with governance. <i>[Redundant with ISA 200]</i></p> <p>...for example valuation methods that employ a combination of estimates of expected future cash flows together with estimates of the values of assets or liabilities in the future, discounted to the present.</p> <p>Paragraph 36 of the "International Framework for Assurance Engagements" describes these characteristics in more detail. <i>[Unnecessary]</i></p>
41. Specific assumptions will vary with the characteristics of the asset or liability being	Specific assumptions will vary with the characteristics of the asset or liability being valued and the valuation method used (for

internal consistency, including whether such information is consistent with management's intent to carry out specific courses of action discussed in paragraphs 22 and 23.		internal consistency...[A61] ... including whether such information is consistent with management's intent to carry out specific courses of action discussed in paragraphs 22 and 23. [See A71.]	
Developing Independent Fair Value Estimates for Corroborative Purposes			
52. The auditor may make an independent estimate of fair value (for example, by using an auditor-developed model) to corroborate the entity's fair value measurement. When developing an independent estimate using management's assumptions, the auditor evaluates those assumptions as discussed in paragraphs 39-49. Instead of using management's assumptions the auditor may develop separate assumptions to make a comparison with management's fair value measurements. In that situation, the auditor nevertheless understands management's assumptions. The auditor uses that understanding to determine that the auditor's model considers the significant variables and to evaluate any significant difference from management's estimate. The auditor also performs audit procedures on the data used to develop the fair value measurements and disclosures as discussed in paragraphs 50 and 51. The auditor considers the guidance contained in ISA 520, "Analytical Procedures" when performing these procedures during an audit.		The auditor may make an independent estimate of fair value (for example, by using an auditor-developed model) to corroborate the entity's fair value measurement. When developing an independent estimate using management's assumptions, the auditor evaluates those assumptions as discussed in paragraphs 39-49. Instead of using management's assumptions the auditor may develop separate assumptions to make a comparison with management's fair value measurements. In that situation, the auditor nevertheless understands management's assumptions. The auditor uses that understanding to determine that the auditor's model considers the significant variables and to evaluate any significant difference from management's estimate. The auditor also performs audit procedures on the data used to develop the fair value measurements and disclosures as discussed in paragraphs 50 and 51. Subsequent Events			
53. The auditor should consider the effect of subsequent events on the fair value measurements and disclosures in the financial statements.		The auditor should consider the effect of subsequent events on the fair value measurements and disclosures in the financial statements. <i>[See 10(a)]</i>	
54. Transactions and events that occur after period-end but prior to completion of the audit, may provide appropriate audit evidence regarding the fair value measurements made by management. For example, a sale of investment property shortly after the period-end may provide audit evidence relating to the fair value measurement.	For example, a sale of investment property shortly after the period-end may provide audit evidence relating to the fair value measurement. <i>[See A55]</i>	Transactions and events that occur after period-end but prior to completion of the audit, may provide appropriate audit evidence regarding the fair value measurements made by management. <i>[See A53]</i>	
55. In the period after a financial statement period-end, however, circumstances may change from those existing at the period-end. Fair value information after the period -end may reflect events occurring after the period-end and not the circumstances existing at the balance sheet date. For example, the prices of actively traded marketable securities that change after the period-end ordinarily do not constitute appropriate audit evidence of the values of the securities that existed at the period-end. The auditor complies with ISA 560, “Subsequent Events” when evaluating audit evidence relating to such events.	In the period after a financial statement period-end, however, circumstances may change from those existing at the period-end. Fair value information after the period -end may reflect events occurring after the period-end and not the circumstances existing at the balance sheet date. <i>[See A55]</i>	The auditor complies with ISA 560, “Subsequent Events” when evaluating audit evidence relating to such events. <i>[See A58]</i>	For example, the prices of actively traded marketable securities that change after the period-end ordinarily do not constitute appropriate audit evidence of the values of the securities that existed at the period-end. <i>[Example is of one outside the scope of the Combined ISA]</i>

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
Disclosures about Fair Values			
56. The auditor should evaluate whether the disclosures about fair values made by the entity are in accordance with its financial reporting framework.		The auditor should evaluate whether the disclosures about fair values made by the entity are in accordance with its financial reporting framework. <i>[See 15]</i>	
57. Disclosure of fair value information is an important aspect of financial statements in many financial reporting frameworks. Often, fair value disclosure is required because of the relevance to users in the evaluation of an entity's performance and financial position. In addition to the fair value information required by the applicable financial reporting framework, some entities disclose voluntary additional fair value information in the notes to the financial statements.			Disclosure of fair value information is an important aspect of financial statements in many financial reporting frameworks. Often, fair value disclosure is required because of the relevance to users in the evaluation of an entity's performance and financial position. In addition to the fair value information required by the applicable financial reporting framework, some entities disclose voluntary additional fair value information in the notes to the financial statements.
58. When auditing fair value measurements and related disclosures included in the notes to the financial statements, whether required by the applicable financial reporting framework or disclosed voluntarily, the auditor ordinarily performs essentially the same types of audit procedures as those employed in auditing a fair value measurement recognized in the financial statements. The auditor obtains sufficient appropriate audit evidence that the valuation principles are appropriate under the entity's applicable financial reporting framework, are being consistently applied, and the method of	When auditing fair value measurements and related disclosures included in the notes to the financial statements, whether required by the applicable financial reporting framework or disclosed voluntarily, the auditor ordinarily performs essentially the same types of audit procedures as those employed in auditing a fair value measurement recognized in the financial statements. <i>[See A107]</i>		The auditor obtains sufficient appropriate audit evidence that the valuation principles are appropriate under the entity's applicable financial reporting framework, are being consistently applied, and the method of estimation and significant assumptions used are properly

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
estimation and significant assumptions used are properly disclosed in accordance with the entity's applicable financial reporting framework. The auditor also considers whether voluntary information may be inappropriate in the context of the financial statements. For example, management may disclose a current sales value for an asset without mentioning that significant restrictions under contractual arrangements preclude the sale in the immediate future.			disclosed in accordance with the entity's applicable financial reporting framework. The auditor also considers whether voluntary information may be inappropriate in the context of the financial statements. For example, management may disclose a current sales value for an asset without mentioning that significant restrictions under contractual arrangements preclude the sale in the immediate future. <i>[Recap not considered necessary]</i>
59. The auditor evaluates whether the entity has made appropriate disclosures about fair value information as called for by its financial reporting framework. If an item contains a high degree of measurement uncertainty, the auditor assesses whether the disclosures are sufficient to inform users of such uncertainty. For example, the auditor might evaluate whether disclosures about a range of amounts, and the assumptions used in determining the range, within which the fair value is reasonably believed to lie is appropriate under the entity's applicable financial reporting framework, when management considers a single amount presentation not appropriate. Where applicable, the auditor also considers whether the entity has complied with the accounting and disclosure requirements relating to changes in the valuation method used to determine fair value measurements.	For example, the auditor might evaluate whether disclosures about a range of amounts, and the assumptions used in determining the range, within which the fair value is reasonably believed to lie is appropriate under the entity's applicable financial reporting framework, <i>[See A101]</i>	The auditor evaluates whether the entity has made appropriate disclosures about fair value information as called for by its financial reporting framework. If an item contains a high degree of measurement uncertainty, the auditor assesses whether the disclosures are sufficient to inform users of such uncertainty. <i>[See 14 & A100-A102]</i> Where applicable, the auditor also considers whether the entity has complied with the accounting and disclosure requirements relating to changes in the valuation method used to determine fair value measurements. <i>[See above references]</i>

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
statements are in accordance with the entity's applicable financial reporting framework, the auditor evaluates the consistency of the information and audit evidence obtained during the audit of fair value measurements with other audit evidence obtained during the audit, in the context of the financial statements taken as a whole. For example, the auditor considers whether there is or should be a relationship or correlation between the interest rates used to discount estimated future cash flows in determining the fair value of an investment property and interest rates on borrowings currently being incurred by the entity to acquire investment property.	For example, the auditor considers whether there is or should be a relationship or correlation between the interest rates used to discount estimated future cash flows in determining the fair value of an investment property and interest rates on borrowings currently being incurred by the entity to acquire investment property. [See A69]		statements are in accordance with the entity's applicable financial reporting framework, the auditor evaluates the consistency of the information and audit evidence obtained during the audit of fair value measurements with other audit evidence obtained during the audit, in the context of the financial statements taken as a whole.
Management Representations			
63. The auditor should obtain written representations from management regarding the reasonableness of significant assumptions, including whether they appropriately reflect management's intent and ability to carry out specific courses of action on behalf of the entity where relevant to the fair value measurements or disclosures.		The auditor should obtain written representations from management regarding the reasonableness of significant assumptions...[See 17] including whether they appropriately reflect management's intent and ability to carry out specific courses of action on behalf of the entity where relevant to the fair value measurements or disclosures. [See A110]	
64. ISA 580, "Management Representations" discusses the use of management representations as audit evidence. Depending on the nature,		ISA 580, "Management Representations" discusses the use of management representations as audit evidence. Depending on the nature, materiality and complexity of fair values,	

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
<p>materiality and complexity of fair values, management representations about fair value measurements and disclosures contained in the financial statements also may include representations about the following:</p> <ul style="list-style-type: none"> • The appropriateness of the measurement methods, including related assumptions, used by management in determining fair values within the applicable financial reporting framework, and the consistency in application of the methods. • The basis used by management to overcome the presumption relating to the use of fair value set forth under the entity's applicable financial reporting framework. • The completeness and appropriateness of disclosures related to fair values under the entity's applicable financial reporting framework. • Whether subsequent events require adjustment to the fair value measurements and disclosures included in the financial statements. 	<ul style="list-style-type: none"> • The basis used by management to overcome the presumption relating to the use of fair value set forth under the entity's applicable financial reporting framework. <i>[See A111]</i> 	<p>management representations about fair value measurements and disclosures contained in the financial statements also may include representations about the following:</p> <ul style="list-style-type: none"> • The appropriateness of the measurement methods, including related assumptions, used by management in determining fair values within the applicable financial reporting framework, and the consistency in application of the methods. • The completeness and appropriateness of disclosures related to fair values under the entity's applicable financial reporting framework. • Whether subsequent events require adjustment to the fair value measurements and disclosures included in the financial statements. <i>[See A110]</i> 	
Communication with Those Charged with Governance			
65. ISA 260, "Communication of Audit Matters with Those Charged with Governance" requires auditors to communicate audit matters of governance interest with those charged with			ISA 260, "Communication of Audit Matters with Those Charged with Governance" requires auditors to communicate audit matters of governance interest with those charged with governance. Because of the uncertainties often

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
governance. Because of the uncertainties often involved with some fair value measurements, the potential effect on the financial statements of any significant risks may be of governance interest. For example, the auditor considers communicating the nature of significant assumptions used in fair value measurements, the degree of subjectivity involved in the development of the assumptions, and the relative materiality of the items being measured at fair value to the financial statements as a whole. The auditor considers the guidance contained in ISA 260 when determining the nature and form of communication.			involved with some fair value measurements, the potential effect on the financial statements of any significant risks may be of governance interest. For example, the auditor considers communicating the nature of significant assumptions used in fair value measurements, the degree of subjectivity involved in the development of the assumptions, and the relative materiality of the items being measured at fair value to the financial statements as a whole. The auditor considers the guidance contained in ISA 260 when determining the nature and form of communication. <i>[As previously discussed by IAASB in connection with the revision of ISA 540]</i>
Public Sector Perspective			
1. Many governments are moving to accrual accounting and are adopting fair value as the basis of valuation for many classes of the assets and liabilities that they hold, or for disclosures of items in the financial statements. The broad principles of this ISA are therefore applicable to the consideration of the audit of fair value measurements and disclosures included in the financial statements of public sector entities. The broad principles of this ISA are therefore applicable to the consideration of the audit of fair value measurements and disclosures included in the financial statements of public sector entities.
2. Paragraph 3 of the ISA states that when fair value measurements and disclosures are material to the financial statements, the auditor should obtain sufficient appropriate audit evidence that			Paragraph 3 of the ISA states that when fair value measurements and disclosures are material to the financial statements, the auditor should obtain sufficient appropriate audit evidence that such measurements and disclosures are in accordance

ISA 545	Content or principal points <u>brought forward</u> to the Combined ISA, <u>reworded as appropriate</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content or principal points <u>covered already</u> by ISA 540 (Revised) and <u>accordingly, not brought forward</u> (Note: Reference in parenthesis refer to paragraphs in the Combined ISA in Agenda Item 3-C)	Content not considered necessary or appropriate for purposes of the Combined ISA 540-545 and <u>accordingly, not brought forward</u> (Note: Explanation, where necessary, is provided in parenthesis)
such measurements and disclosures are in accordance with the entity's applicable financial reporting framework. The International Public Sector Accounting Standards accounting framework include a number of standards that require or allow the recognition or disclosure of fair values.			with the entity's applicable financial reporting framework. The International Public Sector Accounting Standards accounting framework include a number of standards that require or allow the recognition or disclosure of fair values.
3. As noted in paragraph 8 of the ISA, determining the fair value of certain assets or liabilities may be complex where there is no active market. This can be a particular issue in the public sector, where entities have significant holdings of specialized assets. Furthermore many assets held by public sector entities do not generate cash flows. In these circumstances a fair value or similar current value may be estimated by reference to other valuation methods including, but not limited to, depreciated replacement cost and indexed price method.	As noted in paragraph 8 of the ISA, determining the fair value of certain assets or liabilities may be complex where there is no active market. This can be a particular issue in the public sector, where entities have significant holdings of specialized assets. Furthermore many assets held by public sector entities do not generate cash flows. <i>[See A11]</i>		In these circumstances a fair value or similar current value may be estimated by reference to other valuation methods including, but not limited to, depreciated replacement cost and indexed price method.

The Appendix to ISA 545 has been carried forward to the Combined ISA substantially unchanged. It is therefore not reproduced here.
