Agenda Item 6-B

Private Equity and Other External Investments (PE&OEI) in Accounting Firms Joint IESBA-IAASB Action Plan for Phase 1 – September 2026

This Agenda Item sets out the Joint IESBA-IAASB Action Plan (Joint Action Plan). The tables below incorporate updates from the Standard Setting Boards' Project Teams (SSB PTs) to the [draft IESBA Action Plan](#) that was considered at the June 2026 IESBA meeting for the planned activities in accordance with the IESBA Terms of Reference. The tables include the status of proposed activities and updated information on existing activities. It also highlights any new activities added to the plan, including aspects of the Joint Action Plan to obtain an understanding of the implications of PE&OEI in accounting firms for the IAASB's quality management standards.¹

The Joint Action Plan considers PE&OEI in accounting firms² broadly. However, the relevance of specific matters identified through these activities will depend on the services performed by the firm. In particular, matters relating to auditor independence and the IAASB's quality management standards apply only to firms that perform audit and assurance engagements. Accordingly, the SSB PTs' information-gathering and outreach activities will seek perspectives from both firms that perform audit and assurance engagements and those that do not, with any implications considered, as appropriate, in the context of the services performed by the respective firms.

The SSB PTs recognize the importance of moving at pace and expediting progress as much as possible, with a Joint IESBA-IAASB Phase 1 Final Report to be presented no later than March 2027.

¹ The IAASB's quality management standards comprise the International Standard on Quality Management (ISQM) 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements*, ISQM 2, *Engagement Quality Reviews* and International Standard on Auditing (ISA) 220 (Revised), *Quality Management for an Audit of Financial Statements*.

² This paper uses the term "accounting firm" or "firm" to refer to a firm that provides professional services performed by professional accountants, for example, accounting, auditing, other assurance, tax advisory and compliance, consulting, etc

A. Information Gathering

Gather information on the nature, extent, and evolution of private equity investment (PEI) and other emerging ownership and financing models affecting accounting firms globally. Engage with stakeholders to obtain insights on market developments, benefits, risks, and safeguards or other responses.

Action	Details	Outcome and Next Steps	Status and Timing
Desktop research	Conduct a structured review of academic, regulatory, and industry sources to identify: - Accounting firm structures (AFS); - Investment models; - Jurisdictional responses with respect to various AFS and investment models; - Ethical and independence threats, and safeguards or other responses to such threats; and - Quality risks and responses to address such quality risks within the firm's system of quality management. Continue monitoring emerging research relating to PE&OEI developments in comparable service-driven sectors.	Findings will be included in the Joint IESBA-IAASB Phase 1 Final Report to inform each PT's recommendations.	Completion expected by Q4 2026

Action	Details	Outcome and Next Steps	Status and Timing

B. Obtain an Understanding of Common Accounting Firm Structures⁹ (AFS) and Investment Models

AFS and investment models vary across different jurisdictions and often have unique economic, governance, and control characteristics. As it is impracticable to gather data on all AFS that exist globally, the focus will be on understanding the most common and prevalent structures.

Action	Details	Outcome	Status and Timing
Firm structures and investment models	Develop an understanding of the most common firm structures and investment models.	Inventory of most common firm structures and investment models observed in various jurisdictions.	IN PROGRESS Completion expected by Q4 2026
Ownership analysis	Analyze the most common ownership rights (incl. minority and majority interests, control mechanisms, and governance).	Baseline of governance frameworks.	IN PROGRESS Completion expected by Q4 2026
Economic model and incentives	Map the economic characteristics of the most common investment models, including capital injection, leverage, distribution arrangements, growth expectations, roll-up strategies, and exit horizons.	Input to risk and public interest analysis.	IN PROGRESS Completion expected by Q4 2026
Operational arrangements for AFS	Analyze most common AFS, service level agreements and operational separation.	Baseline of structural typologies and patterns.	IN PROGRESS Completion expected by Q4 2026
Lifecycle and exit scenarios	Analyze evolution of ownership (IPO, secondary PE, etc.)	Scenario analysis.	IN PROGRESS Completion expected by Q4 2026

⁹ Such as but not limited to PEI, alternative practice structures, multidisciplinary structures, corporate structures, listed firms, and employee ownership models.

C. Ethical, Independence, Quality Management, Audit and Other Assurance Quality, and Public Interest Issues

Identify and analyze potential ethical, independence, quality management, audit and other assurance quality, and public interest issues, including those relating to governance and leadership, investor control or influence, financial incentives and firm culture, and conflicts of interest. Further analyze issues identified through prior IESBA or IAASB activities and deepen understanding of the ethical and independence as well as quality management implications.

Action	Details	Outcome and Next Steps	Status and Timing
Consider prior IESBA outputs	Analyze IESBA Staff Alert and board discussion as baseline.	Gap identification against the IESBA Staff Alert in order to determine issues to be raised in the Joint IESBA-IAASB Phase 1 Final Report. Findings to inform the IESBA PT's recommendations in the Joint IESBA-IAASB Phase 1 Final Report.	NOT YET STARTED Planned for Q4 2026
Emerging scenarios	Identify most common scenarios for deeper substance-over-form review and analysis (particularly those involving complex investor structures, multiple-firm relationships, or evolving ownership over time).	Scenario deep-dive analysis. Findings to inform each PT's recommendations in the Joint IESBA-IAASB Phase 1 Final Report.	ONGOING Throughout Phase 1
Governance and leadership	Assess impact on professional judgment, professional skepticism, accountability, and compliance with the Code and the quality management standards.	Governance and leadership impact analysis. Findings to inform each PT's recommendations in the Joint IESBA-IAASB Phase 1 Final Report.	ONGOING Throughout Phase 1

	maintaining a principles-based, substance-over-form perspective.		

D. Review of Relevant Provisions of the Code and the Principles in the Quality Management Standards

Review relevant provisions of the Code (including independence standards) and principles in the quality management standards to evaluate whether they remain fit-for-purpose (i.e., provisions or principles remain appropriate and are capable of addressing threats or risks associated with evolving AFS and investment models or whether any gaps exist).

Action	Details	Outcome and Next Steps	Status and Timing
Characterization of entities and relationships	Assess application of the Code ¹⁰ and the quality management standards (substance over form) to AFS.	Findings to inform each PT's recommendations in the Joint IESBA-IAASB Phase 1 Final Report.	NOT YET STARTED Planned Q4 2026
Definitions	Evaluate whether definitions ¹¹ in the Code and the quality management standards remain fit-for-purpose.	Findings to inform each PT's recommendations in the Joint IESBA-IAASB Phase 1 Final Report.	NOT YET STARTED Planned Q4 2026
Independence standards	Review relevant independence provisions, including those relating to financial interests, business relationships, and the identification of relevant entities and relationships with respect to complex AFS.	Findings to inform the IESBA PT's recommendations in the Joint IESBA-IAASB Phase 1 Final Report.	NOT YET STARTED Planned Q4 2026

¹⁰ This includes applying the conceptual framework

¹¹ Such as definitions of "firm", "network", "network firm" and "related entity"

Action	Details	Outcome and Next Steps	Status and Timing
Quality management standards	Review whether and, if so, how firms are addressing the events, conditions or circumstances associated with PE&OEI through their systems of quality management by applying the existing principles in the quality management standards (both at the firm level and the engagement level).	Findings to inform IAASB PT's recommendations as part of the Joint IESBA-IAASB Phase 1 Final Report.	NOT YET STARTED Planned Q4 2026
Gap identification and options	Identify areas where the Code or the quality management standards may not appear to address the threats or risks (if any) adequately, or where clarification may be needed.	Findings to inform each PT's recommendations in the Joint IESBA-IAASB Phase 1 Final Report.	NOT YET STARTED Planned Q4 2026

E. Non-Authoritative Material (NAM)

Consider whether to commission non-authoritative material (NAM) to raise awareness of, and emphasize key provisions in, the extant Code relevant to PE&OEI, and related ethical and independence issues and challenges.

Action	Details	Status & Timing
Non-Authoritative Materials	Consider and develop IESBA NAM as appropriate to raise awareness of, and emphasize key provisions in, the extant Code relevant to PE&OEI.	Consideration: ONGOING Development: TBC

F. Joint IESBA-IAASB Final Report with Findings and Recommendations

Develop a joint report with findings and recommendations to inform IESBA's and the IAASB's decision-making, while respecting the distinct mandates of each Board.

Action	Details	Status & Timing
Final report no later than March 2027	The SSB PTs' Phase 1 Final Report will set out findings, recommendations, and a proposed way forward, including whether standard-setting, or further non-authoritative material, outreach, or awareness-raising should be pursued. Each Board will reflect on the findings and recommendations in the context of its remit, while recognizing the commonality of issues across their standards, to determine an appropriate way forward.	NOT YET STARTED Planned no later than Q1 2027
