

RESPONSE TEMPLATE FOR THE ED OF PROPOSED NARROW-SCOPE AMENDMENTS TO IAASB STANDARDS ARISING FROM THE IESBA'S USING THE WORK OF AN EXTERNAL EXPERT PROJECT

Guide for Respondents

Comments are requested by **July 24, 2025**.

This template is for providing comments on the Exposure Draft (ED) of proposed Narrow-Scope Amendments to International Auditing and Assurance Standards Board® (IAASB®) Standards Arising from the International Ethics Standards Board for Accountants' (IESBA) Using the Work of an External Expert project, in response to the questions set out in the Explanatory Memorandum (EM) to the ED. It also allows for respondent details, demographics and other comments to be provided. Use of the template will facilitate the IAASB's automated collation of the responses.

You may respond to all questions or only selected questions.

To assist our consideration of your comments, please:

- For each question, start by indicating your overall response using the drop-down menu under each question. Then below that include any detailed comments, as indicated.
- When providing comments:
 - Respond directly to the questions.
 - Provide the rationale for your answers. If you disagree with the proposals in the ED, please provide specific reasons for your disagreement and specific suggestions for changes that may be needed to the requirements, application material or appendices. If you agree with the proposals, it will be helpful for the IAASB to be made aware of this view.
 - Identify the specific aspects of the ED that your response relates to, for example, by reference to sections, headings or specific paragraphs in the ED.
 - Avoid inserting tables or text boxes in the template when providing your responses to the questions because this will complicate the automated collation of the responses.
- Submit your comments, using the response template only, without a covering letter or any summary of your key issues, instead identify any key issues, as far as possible, in your responses to the questions.

The response template provides the opportunity to provide details about your organization and, should you choose to do so, any other matters not raised in specific questions that you wish to place on the public record. All responses will be considered a matter of public record and will ultimately be posted on the IAASB website.

Use the “**Submit Comment**” button on the ED [web page](#) to upload the completed template.

(See EM, Section 1-A)

Specific Questions

Proposed Narrow-Scope Amendments to ISA 620¹

2. Do you agree that the proposed narrow-scope amendments to ISA 620 are appropriate to maintain interoperability with the new provisions in the Code related to using the work of an external expert?

(See EM, Section 1-C)

Overall response: Agree, with comments below

Detailed comments (if any):

GLASS agrees with the proposed amendments to ISA 620, as they strengthen alignment with the requirements of the IESBA Code. In particular, the inclusion of paragraph A13A highlights the need for the auditor to consider relevant ethical provisions when using the work of an expert. Additionally, paragraph A16A reinforces the auditor's obligation to evaluate the expert's competence, capabilities, and objectivity, in line with the provisions of Section 390 of the IESBA Code. These changes provide greater clarity regarding objectivity and potential threats, which contributes to enhancing the quality and reliability of the audit.

Detailed comments (if any):

6. Effective Date—Given the public interest benefit of aligning the effective date of these proposed narrow-scope amendments with the effective date of the revised Code provisions related to using the work of an external expert, the IAASB believes that an appropriate implementation period would be approximately 12 months after the PIOB's process of certification of the final narrow-scope amendments. The IAASB welcomes comments on whether this would provide a sufficient period to support effective implementation of the narrow-scope amendments.
