

ISA 540 (Revised) Post-Implementation Survey

Response ID:282 Data

3. Section II: About the Respondent

1. Please provide the following information about your organization (if applicable) and other contact information:

Organization (or leave blank if you are completing the survey in your personal capacity) : Crowe Solutions for Professional Consultancy

Name(s) of contact(s) for this submission : Saad Kasmani

Job title or role : Senior Director

E-mail address(es) of contact(s) : s.kasmani@crowe.sa

2. Please select from the following options the stakeholder group to which you or your organization belongs:

Accounting Firm

Specify the type of accounting firm you represent:

Global accounting firm

3. Please select from the following options the geographical region that best matches you or your organization:

Middle East

4. Did you undertake outreach activities with other stakeholders outside your organization to inform your responses to this survey?

No

5. You are welcome to provide any additional information you believe may be relevant to clarify the context in which you are completing the survey, or the circumstances or experiences that have informed your views or perspectives (or you can choose to leave this question blank).

4. Section III: Overall Questions

6. Please provide overall views about whether ISA 540 (Revised) has achieved its intended purpose and the objectives of the IAASB in developing the revised standard.

ISA 540 (Revised) has largely achieved the IAASB's objectives by improving audit quality through a stronger risk-based approach, enhanced professional skepticism, and more rigorous auditing of accounting estimates, including complex and judgmental areas. While implementation has increased documentation and effort, and may present challenges when auditing smaller clients, overall we view the revised standard as successful and beneficial.

7. Are you aware of the non-authoritative guidance and support tools developed to support the implementation of ISA 540 (Revised)?

Yes

7A. Do you agree that the non-authoritative guidance and support tools developed to support the implementation of ISA 540 (Revised) are useful?

3 – Agree

Comments:

5. Section IV: Perceived Benefits from ISA 540 (Revised)

8. For each perceived benefit, indicate the extent to which you agree that ISA 540 (Revised) has led to benefits or improvements.

	4 – Strongly Agree	3 – Agree	2 – Disagree	1 – Strongly Disagree	0 – No Response
(a) Enhanced exercise of professional skepticism when auditing accounting estimates.	X				
(b) Greater consideration of the skills and competencies of the engagement team, including the need to involve specialists or experts.	X				
(c) Greater attention to understanding management's process for making estimates, including the selection of methods, assumptions and data (and the consistency of selection between periods).	X				
(d) Better or more focused assessments of the risks of material misstatements for accounting estimates.	X				
(e) More focus on understanding and testing controls related to accounting estimates.	X				
(f) Increased auditor attention to disclosures related to accounting estimates, including disclosures about estimation uncertainty.	X				
(g) Enhanced interactions and communications between the auditor and management and those charged with governance related to the audit of accounting estimates.	X				
(h) Enhanced quality of financial reporting related to accounting estimates.	X				

9. Are there any additional benefits or positive outcomes arising from the implementation of ISA 540 (Revised) that you would like to highlight?

No

6. Section V: Potential Issues or Challenges Relating to ISA 540 (Revised)

10. ISA 540 (Revised) was designed to be capable of being applied to all accounting estimates, and for the nature, timing and extent of the risk assessment and further audit procedures to be varied in relation to the estimation uncertainty and the assessment of the risks of material misstatement. Indicate the extent to which you have experienced or are aware of any issues or challenges related to scalability and proportionality.

2 – Minor Issues or Challenges

11. Briefly describe these or any other issues or challenges you encountered related to scalability and proportionality.

While ISA 540 (Revised) is scalable and applicable to all entities, its practical application in audits of smaller and less complex entities can be challenging and may result in requirements that are not always proportionate to the nature and simplicity of the estimates involved, particularly in jurisdictions where ISA for LCEs has not yet been adopted.

12. In your view, are the issues or challenges due to a lack of clarity or insufficiency of the requirements or application material in the standard?

Difficult to Determine

13. What specific suggestions do you have for how the IAASB can best address the issues or challenges you have identified (e.g., standard-setting, non-authoritative guidance, or other actions)?

No significant changes to the standard appear necessary. Continued sharing of implementation experiences and practical

examples may help promote more consistent application in smaller and less complex audits.

7. Section V: Potential Issues or Challenges Relating to ISA 540 (Revised) (continued)

14. Indicate the extent to which you have experienced or are aware of the following issues or challenges in applying ISA 540 (Revised) with respect the auditor exercising professional skepticism when auditing accounting estimates and related disclosures.

	4 – Significant Issues or Challenges	3 – Moderate Issues or Challenges	2 – Minor Issues or Challenges	1 – No Issues or Challenges	0 – No Response
(a) Appropriately challenging management's judgments used in making accounting estimates, particularly when they involve complex or subjective inputs.		X			
(b) Identifying and appropriately responding to potential indicators of management bias in the development of accounting estimates.		X			
(c) Appropriately considering all relevant audit evidence obtained, whether corroborative or contradictory.		X			

15. Briefly describe these or any other issues or challenges you encountered related to exercising professional skepticism.

While ISA 540 (Revised) appropriately emphasizes professional skepticism, challenges may arise when auditing estimates that involve significant judgment and limited observable market evidence, particularly in markets where comparable market information is not readily available. In such circumstances, assessing the reasonableness of management's assumptions and identifying potential management bias can require considerable auditor judgment.

16. In your view, are the observed issues or challenges due to a lack of clarity or insufficiency of the requirements or application material in the standard?

No

17. What specific suggestions do you have for how the IAASB can best address the issues or challenges you have identified (e.g., standard-setting, non-authoritative guidance, or other actions)?

N/A. The requirements and application material in ISA 540 (Revised) are generally clear. Challenges mainly arise from the nature of accounting estimates and from operating environments where observable market data, benchmarks, or valuation inputs are limited, rather than from any lack of clarity in the standard.

8. Section V: Potential Issues or Challenges Relating to ISA 540 (Revised) (continued)

18. Indicate the extent to which you have experienced the following issues or challenges in applying ISA 540 (Revised) with respect to *risk assessment procedures and identifying and assessing the risks of material misstatement related to accounting estimates*.

	4 – Significant Issues or Challenges	3 – Moderate Issues or Challenges	2 – Minor Issues or Challenges	1 – No Issues or Challenges	0 – No Response
(a) The consideration of inherent risk factors and the interrelationship between them in identifying and assessing risks of material misstatement related to accounting estimates.		X			
(b) How the understanding of the entity and its environment, and the entity's internal control for accounting estimates, relates to the understanding required by ISA 315 (Revised 2019) (i.e., whether it is clear that the requirements in paragraph 13 of ISA 540 (Revised) relate specifically to accounting estimates and build on the broader requirements in ISA 315 (Revised 2019)).			X		
(c) Reviewing the outcome of previous accounting estimates or, where applicable, their subsequent re-estimation (i.e., the retrospective review of accounting estimates).				X	
(d) Understanding management's process for making accounting estimates, including how management identifies and selects relevant methods, assumptions and data, and how management understands and addresses estimation uncertainty.			X		
(e) The separate assessments of inherent and control risk relating to an accounting estimate.			X		
(f) Whether any of the assessed risks of material misstatement are significant risks.			X		

19. Briefly describe these or any other issues or challenges you encountered related to risk assessment procedures and whether such issues or challenges relate primarily to estimates that have a high degree of estimation uncertainty or complexity.

Risk assessment procedures are generally clear under ISA 540 (Revised). However, challenges may arise in identifying and assessing risks for accounting estimates that involve high estimation uncertainty, significant complexity, or heavy reliance on management judgment. In such cases, determining the appropriate level of inherent risk and linking it to responsive audit procedures can require substantial professional judgment.

20. In your view, are the observed issues or challenges due to a lack of clarity or insufficiency of the requirements or application material in the standard?

No

21. What specific suggestions do you have for how the IAASB can best address the issues or challenges you have identified (e.g., standard-setting, non-authoritative guidance, or other actions)?

The IAASB could consider developing additional non-authoritative guidance in the form of detailed case studies illustrating the end-to-end application of ISA 540 (Revised), particularly for estimates with high estimation uncertainty and complexity, including in environments with limited availability of observable market data. This would help demonstrate how risk assessment procedures are translated into tailored audit responses in practice.

9. Section V: Potential Issues or Challenges Relating to ISA 540 (Revised) (continued)

22. Indicate the extent to which you have experienced the following issues or challenges in applying ISA 540 (Revised)

with respect to *responding to the assessed risks of material misstatement*

	4 – Significant Issues or Challenges	3 – Moderate Issues or Challenges	2 – Minor Issues or Challenges	1 – No Issues or Challenges	0 – No Response
Responses to the Assessed Risks of Material Misstatement					
(a) Determining the most appropriate response(s) to the assessed risks of material misstatement at the assertion level from among the testing approaches in paragraph 18 of ISA 540 (Revised).			X		
(b) Determining whether to test the operating effectiveness of controls related to an accounting estimate.			X		
(c) Appropriately applying the testing approach of obtaining audit evidence about events occurring up to the date of the auditor's report, either alone or with another testing approach(es).			X		
(d) Testing how management made the accounting estimate.			X		
(e) Developing an auditor's point estimate or range.			X		
Overall Evaluation					
(f) Determining whether the accounting estimates and related disclosures are reasonable in the context of the applicable financial reporting framework, or are misstated.					
(g) Evaluating identified misstatements related to accounting estimates, including when the audit evidence supports a point estimate that differs from management's point estimate or a range that does not include management's point estimate, or when the auditor's range is wide (in some cases, multiples of materiality for the financial statements as a whole).					

23. Briefly describe these or any other issues or challenges you encountered related to responding to risks of material misstatement and whether such issues or challenges relate primarily to estimates that have a high degree of estimation uncertainty or complexity.

Minor to moderate challenges have been experienced in developing an auditor's point estimate or range, particularly for complex accounting estimates where auditor's experts are involved. In such cases, the process can be time-consuming and resource-intensive, and may require substantial coordination with specialists and access to reliable underlying data.

24. In your view, are the observed issues or challenges due to a lack of clarity or insufficiency of the requirements or application material in the standard?

No

25. What specific suggestions do you have for how the IAASB can best address the issues or challenges you have identified (e.g., standard-setting, non-authoritative guidance, or other actions)?

None

10. Section V: Potential Issues or Challenges Relating to ISA 540 (Revised) (continued)

26. Indicate the extent to which you have experienced the following issues or challenges in applying ISA 540 (Revised) with respect to *communication, specialized skills or knowledge, including using the work of an auditor's expert, and*

documentation.

	4 – Significant Issues or Challenges	3 – Moderate Issues or Challenges	2 – Minor Issues or Challenges	1 – No Issues or Challenges	0 – No Response
Communication (a) Determining the matters, if any, to communicate related to accounting estimates, (including about significant qualitative aspects of the entity's accounting practices and significant deficiencies in internal control).			X		
Specialized Skills or Knowledge, Including Using the Work of an Auditor's Expert (b) Determining when it is appropriate to involve an auditor's expert(s) (an internal or external expert) and using the work of an auditor's expert(s) in auditing an accounting estimate(s).				X	
Documentation (c) Preparing appropriate audit documentation in accordance with the requirements in paragraph 39 of ISA 540 (Revised).			X		

27. Briefly describe these or any other issues or challenges you encountered or observed related to communications, specialized skills or knowledge (including using the work of an auditor's expert) and documentation.

None

28. In your view, are the observed issues or challenges due to a lack of clarity or insufficiency of the requirements or application material in the standard?

No

29. What specific suggestions do you have for how the IAASB can best address the issues or challenges you have identified (e.g., standard-setting, non-authoritative guidance, or other actions)?

Already mentioned in previous responses.
